Digital: Not all screens are calibrated the same, and therefore, colors will appear differently betwee[n] and between product families.

Physical: When texture is involved, there will be variations in color, character and tone within a pro[duct] and between product families.

Gun Metal: No Gun Metal finish is alike. It combines a mixture of transparent and black color particl[es] [en]sures a highly individual effect and no luminaire being identical. **Champagne Cream, Copper Mine, Ancient Bronze + Jazz Gold:** These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.
