Digital: Not all screens are calibrated the same, and therefore, colors will appear differently between ... and between product families.
Physical: When texture is involved, there will be variations in color, character and tone within a pro... and between product families.
Gun Metal: No Gun Metal finish is alike. It combines a mixture of transparent and black color particles which ensures a highly individual effect and no luminaire being identical.
Champagne Cream, Copper Mine, Ancient Bronze + Jazz Gold: These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.
