Digital: Not all screens are calibrated the same, and therefore, colors will appear differently between screens.
Physical: While the digital color is the best representation of the color, there will be slight variations in color and tone within a product series and between product families.
 Available for International specifications by adding 'INT' at the end of the existing Model #. For assistance on 'custom' specifications, contact zteam@zaneen.com.
 In a constant supply of the product, the color may change slightly over time and black color may vary slightly between individual fixtures and luminaires being identical.
Gun Metal, Mellow Yellow, Golden Heart, Jazz Gold, Moonlight Silver, and Black: These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.
