Digital: Not all screens are calibrated the same, and therefore, colors will appear differently between devices.

Physical: When texture is involved, there will be variations in color, character and tone within a product family.

Gun Metal: Gun Metal finish is alike to iron, it combines a mixture of transparent and black color particles which ensures a highly individual effect and no luminaire being identical.

Champagne Cream, Copper Mine, Ancient Bronze + Jazz Gold: These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.

Available for international specifications by adding 'INT' at the end of the existing Model #. For assistance on 'custom' specifications, contact zteam@zaneen.com.

In a constant effort to supply the best product, we reserve the right to change specifications or materials without notice. The most recent specification sheets are found at zaneen.com

and between product families.
